

AMENDMENT

Kindly amend the claims to recite as follows:

91
3. The patch bag according to Claim 1, wherein the ethylene/alpha-olefin copolymer having a density greater than about 0.915 g/cm^3 is present in the blend in an amount of from about 5 to 70 percent, based on the weight of the blend, and the heterogeneous ethylene/alpha-olefin copolymer having a density of less than about 0.915 g/cm^3 is present in the blend in an amount of from about 30 to 95 percent, based on the weight of the blend.

Kindly add the following newly-presented claim:

---26. A patch bag comprising a heat-shrinkable patch adhered to a heat-shrinkable bag, the heat-shrinkable patch comprising a first heat-shrinkable film and the heat-shrinkable bag comprising a second heat-shrinkable film, the first heat-shrinkable film comprising a blend of:

92
A) ethylene/alpha-olefin copolymer having a density greater than about 0.915 g/cm^3 , present in an amount of at least about 5 percent based on a total weight of the blend; and

B) heterogeneous ethylene/alpha-olefin copolymer having a density of less than about 0.915 g/cm^3 and a composition distribution breadth index less than 55 percent, present in an amount of at least about 21 percent, based on the total weight of the blend; and

wherein the ethylene/alpha-olefin copolymer having a density greater than about 0.915 g/cm^3 and heterogeneous ethylene/alpha-olefin copolymer having a density of less than about 0.915
